

It's time to change your diapers.

Change is good. In fact, sometimes change is a downright necessity, especially when you're talking about diapers. And if you're a convenience store, there's never been a better time to change to Pampers. That's because when you stock new Pampers Unisex Mini Packs in July, we'll give you a \$1 introductory case allowance.

Pampers Unisex Mini Packs come in small, easy-to-handle packages, with flexible fronts for maximum shelving options. With a smaller case size than the leading competitor, Pampers will free up to 50% of your inventory dollars. To hear all of the solutions Pampers has in store for your convenience store, call your local sales representative or John Dejong at 513.983.2537.

Try new Unisex Mini Packs, custom designed for Convenience Stores.
